

BETON TROWEL

CONCRETE FINISHING
& COMPACTION

BATTERY PLATE COMPACTORS

- Battery powered by Honda eGX-Series electric 3 phase engine
- Li-ion battery: 72V/10Ah design reaches 80% charge in 60 minutes
- Optimal in noise and fume restrictive environments
- Ductile cast iron base for strength and longevity
- Reduced maintenance and fewer moving parts
- Superior ergonomics reduce fatigue and hand-arm vibration up to 27%
- Both Models with integrated transport wheels
- Operating time: up to 35 min

MODEL	ENGINE	WEIGHT	PLATE SIZE (mm)	FREQUENCY VPM	CENTRIFUGAL FORCE	TRAVEL SPEED	WATER TANK
BTPC70BH	HONDA GXE2.OH 1.8 kW	80 kg	546x420	6000	10.1 kN	20-25 m/min	No
BTPC95BH	HONDA GXE2.OH 1.8 kW	98 kg	530x500	6000	13.7 kN	20-25 m/min	Yes
