

BETON TROWEL

CONCRETE FINISHING
& COMPACTION

BTR60BH RAMMER

- Engineered with Vibration Absorbing System, motor guard and integrated control switch
- Battery powered by Honda eGX-Series electric 3 phase engine
- 3 Operating speeds
- Li-ion battery: 80% charge in 60 minutes
- Optimal in noise and fume restrictive environments
- Central lifting hook for safe handling on site
- Low motor vibration to reduce operator fatigue

Technical Specifications

Type	BTR60BH
Engine	HONDA GXE2.0S
Engine Power	1.8 kW/ 2.4 kW
Jumping stroke	30-70 mm
Plate size	300 x 250 mm
Max. Impact Force	9.8 kN
Operating Weight	75 kg
Battery Voltage/Cap.	72V/10Ah
Battery Charge time	60 minutes (80%)
Battery working time	Up to 35 minutes
Battery Weight	6,4 kg
Standard charger	10 A
