## BT HIGH FREQUENCY ELECTRONIC CONVERTORS – 32A MODEL

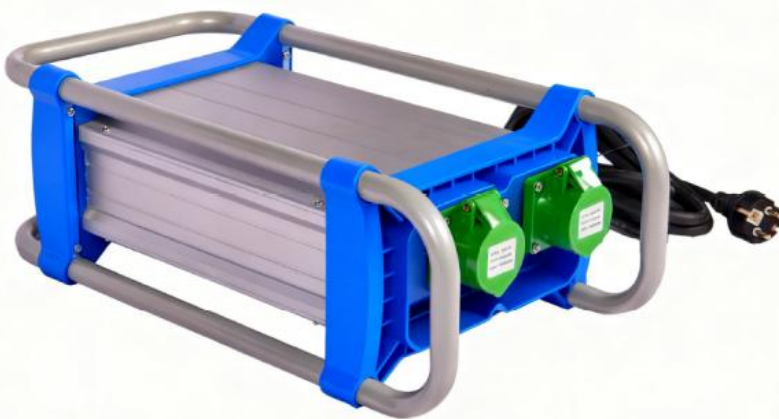

BTBOXCON is a portable electronic converter with 42V/3 phase 200Hz output power which can work with a 100V-250V (50-60Hz) 1 phase power source.

It has a strong protective structure which stands out for its durability and robustness, allowing maximum 2 x 60 mm high-frequency pokers to be connected to the same equipment.

Lightweighted, highly protected and a superior performance.

### SPECIFICATIONS:

Model	BTBOXCON 32A
Input Voltage (V)	100-250V
Input Frequency	50-60Hz
Output Voltage(V)	42 V (+/-5%)
Protection Class	IP65
Temperature	-10°C to + 40°C
Output Frequency (HZ)	200Hz
Current (A)	32A
Overload Capacity	38A (60s)
Weight	9.7 Kg
Cable Length	5 meter
Protection	IP65

Model	No. of output	Maximum connection of vibrating pokers per unit		
		38 mm (8A)	50 mm (11A)	60 mm (16A)
